"Then make Julia give me my pin cushion. She's got it in her pocket."

"It's no such thing, I haven't," retorted Julia. "You have, I say."

pin cushion."

"I tell you I haven't." "Will you hush?" The face of Mrs. Lyon was fiery red, she stamped upon the floor as she spoke. "I want my pin cushion. Make Jule give me my

Irritated beyond control, Mrs. Lyon caught Julia by the arm, and thrusting her hand into her pocket drew out a piece of lace and a penknife. "I told you it wasn't there, couldn't you believe

This impertinence was more than the mother could endure ; and acting upon her indignant impulses, she boxed the ears of Julia soundly, conscious at the same time that Emily was chiefly to blame for all of this trouble, by a wrong accusation of her sister; she turned upon her elso, administering to her likewise an equal punishment. Frightened by all this, the younger children, whose incessant noise for the last half hour, had contributed to the overthrew of their mother's temper, became suddenly quiet, and skulked away into the corners; and the baby that was seated on the floor between two pillows, curved her quivering lips, and glancing fearfully up at the distorted face in which she had been used to see the love-light that

A deep quiet followed this burst of passion like the hush which succeeds the storm. Alas, for the repulsive image of that mother, daguerre typed in an instant, on the memory of her children and never to be effaced. How many, many times in after years, will not a sigh heave in their bosoms, as that painful reflection looks out upon them from amid the dear remembrances of childhood.

A woman with good impulses, but with scarcely the 1st of November. For terms apply to any self-control, was Mrs. Lyon. She loved her children and desired their good. That they showed so little forbearance one with another, manifested so little fraternal feeling, grieved her deeply.

"My whole life is made unhappy by it," she would often say, "what is to be done? It is dreadful to think of a family grown up in disorder and disunion. Sister at variance with sister, and brother lifting his hand against brother."

As was usual after the ebulition of passion, Mrs. Lyon, deeply depressed in spirits as well as discour- Honolulu. For terms, enquire of aged, retired from her family to grieve and weep. Lifting the frightened baby from the floor, she drew its head tenderly against her bosom and leaving the nursery sought the quiet of her room. There in repentance and humiliation she recalled the stormy scene through which she had just passed, and blamed herself for yielding blindly to passion, instead of meeting the trouble among her children with a quiet dis-

To weeping calmness succeeded. Still she was as perplexed in mind, as grieved at her own want of control. What was to be done with her children? How were they to be governed aright? Painfully did she feel her own unfitness for the task. By this time the baby was asleep, and the mother felt something of that tranquil peace that every true mother knows, when a young babe is slumbering on her bosom. A book lay on the shelf near where she was sitting, and Mrs. Lyon, scarcely conscious of the act, reached out her hand for the volume. She opened without feeling any interest in its contents, but she had read only a few sentences when this remark arrested her attention. "All right government of children begins with

self-government." The words seemed written for her, and the truth expressed was elevated instantly into perception. She saw it in the clearest light, and bowed her head in sad acknowledgement of her own errors. Thus for some time she had been sitting, when the murmur of the voices from below grew more distinct, and she was soon aroused to the painful fact that, as usual, when left alone, the children were in a wrangle among themselves. Various noises, as of pounding and throwing chairs and other pieces of furniture were heard, and at length a loud scream mingled with loud vociferations smote upon her ears.

Indignation swelled instantly in the heart of Mrs. Lyon; hurriedly placing the sleeping babe in its crib, she started for the scene of disorder, moved by an impulse to punish severely the young rebels against authority, and was half way down stairs when her feet were checked by a remembrance of the sentiment-" All right government of children begins with self-government."

"Will anger subdue anger? When storm meets storm, is the tempest stilled?" These were questions asked of herself almost involuntarily. "This is no spirit in which to meet my children. It never has, and never will enforce obedience," she added, as she stood upon the stairs struggling with herself and striving for victory. From the nursery came louder sounds of disorder. How weak the mother felt! Yet in this very weakness was strength.

"I must not stand idle here," she said as a sharper cry of anguish smote on her ears, and so she moved each, raised on the Islands by the exhibitor, who must be a on quickly and opening the nursery door stood revealed to her children. Julia had just raised her hand to strike Emily, who stood confronting her with a fiery face. Both were a little started at their mother's sudden appearance, and both expecting the storm which usually came at such times, began to assume the defiant, stubborn air with which her intemperate reproofs were always met.

A few moments did Mrs. Lyon stand looking at her children-grief not anger upon her pale countenance. How still all became. What a look of wonder came gradually in the children's faces, as they glanced one at the other. Something of shame was next visible. And now the mother was conscious of a new power over the young rebels of her household. "Emily," said she speaking mildly, and yet with

a touch of sorrow in her voice she could not subdue, "I wish you would go up into my room and sit with Mary while she sleeps."

Without a sign of opposition or even of reluctance, Emily went quietly from the nursery, in obedience to her mother's desire.

"This room is very much in disorder, Julia." Many times had Mrs. Lyon said, under similar circumstances, "why don't you put things to rights?" or "I never saw such girls! If all the room was topsy turvey, and the floor an inch thick with dirt, you'd never turn over a hand to put things in order," or "go and get the broom this moment, and sweep up the room." Many, many times, as we have said, had such language been addressed by Mrs. Lyon, under like circumstances to Julia and her sisters, without producing any thing but grumbling, partial execution of her wishes. But now the mild intimation that the room was in disorder, produced the effects desired. Julia went quickly about the restoring of things to the right places, and in a few minutes order was apparent where confusion reigned before. Little Tommy, whose love of hammering was an incessant annoyance to his mother, ceased his din on her sudden appearance, and for a few mements stood in he was not under ban as usual, he commenced slap- States and European papers. ping a stick ever the top of an old table, producing a

"Den't Tommy, don't do that. You know it makes mother's head ache."

"Does it make your head ache, mother?" asked the child curiously, and with a pitying tone in his voice as he came creeping up to his mother's side, and looking at her as if in doubt whether he would be repulsed or not.

"Sometimes it does, my son," replied Mrs. Lyon kindly, " and it is always unpleasant. Won't you try to play without making so much noise?" "Yes mother, I'll try," answered the little fellow cheerfully. "But I'll forget sometimes."

He looked earnestly at his mother as if something else was in his thoughts. "Well dear what else?" said she, encouragingly.

"When I forget, you will tell me, wont you?" " Yes, love."

"And then I'll stop. But don't scold me, mother, for then I can't stop." Mrs. Lyon's heart was touched. She caught her breath and bent her face down to conceal its expression, until it rested on the silken hair of the child. "Be a good boy, Tommy, and mother will never

His arms stole apwards, and they were closely twined about her neck; he pressed his lips tightly against her check, thus sealing his part of the contract with a kiss.

How sweet to the mother's taste were those first fruits of self-control. In the effort to govern herself what a power had she acquired. In stilling the tempest of passion in her own bosom, she had poured the oil of peace over the storm-fretted hearts of her chil-

Only first fruits were these. In all her after days did that mother strive with herself, ere she entered into a contest with the inherited evils of her children, and just so far she was able to overcome evil in them. Often, very often, was self-resistance only a slight effort, but the feeble influence for good that flowed from her words or actions whenever this was so, warmed her of error, and prompted a more vigorous self-control. Need it be said that she had an abundant reward?
